NWEA MAP Growth Assessments

MAP assessments, short for "Measures of Academic Progress," are computerized adaptive tests designed to evaluate a student's academic proficiency and growth over time. These assessments are widely used in education to provide educators with valuable insights into a student's current knowledge and learning trajectory. These assessments will be run from kindergarten to Grade 11 at the end of each term.

Failure to provide this within the termination notice period will result in school fees for the upcoming/following term. If the school has acted within the parameters and the student has shown academic progress, then a full terms notice is required. The parameters are as follows:

1. We will only allow policies, procedures, or behaviors that promote the growth and achievement of students
2. All energies will be focused on instructional programs
3. We will not tolerate behavior that diminishes the dignity, self-worth or safety of any individual
4. TGS will only accept and retain those students for whom there is an existing appropriate educational program
5. All decisions will be made based on assuring the school remains fiscally responsible and operates within its own resources
6. As a proprietary school, TGS may differ from non-profit institutions in its decision-making processes and its policymaking

Fee Payment Policy

As a private educational institution, we are committed to providing the highest quality of education and services to our students. To ensure that we can continue to maintain our standards, we require timely payment of school fees.

Please be advised that we reserve the right to not hold a student's place if school fees are not paid. If fees are one month overdue, we cannot guarantee that a student's space will be held. Additionally, the school may be unable to attend meetings with parents or produce academic reports until all outstanding fees have been settled. Refer back to the Overdue Payments section in this document. We appreciate your understanding and prompt attention to this matter to ensure uninterrupted access to our educational services.
